

# COUNCIL FOR FAITH AND MENTAL ILLNESS

## *Who We Are*

*We are a group of people who have a passion for people suffering from Mental Illness. We believe that in addition to medical treatment and social services, persons suffering from mental illnesses have spiritual needs and concerns that often are not met in ordinary ways.*

## *What We Do*

*We seek to provide opportunities for worship, Bible study, and pastoral care in places where persons suffering mental illness live or gather. We also seek to assist churches and their leaders in their own ministry with persons who suffer from mental illness.*

## *How We Would Like to Relate to You*

*We would like to talk with church groups and church leaders about our ministry. We would like to assist them in preparing for and carrying out their own ministry with people who have mental illness. We would like to seek the support of churches and faith groups for this ministry.*
