PHYSICAL HELP

There will be representatives from community agencies and churches throughout the Valley to make freely available to you resources you may currently need, as well as get feedback from you as to your changing needs so preparation for those may also occur.

EMOTIONAL HELP

Due to such traumatic impact to lives and families, certified case workers will be present that can also provide counseling if needed.

SPIRITUAL HELP

The churches of North Alabama sincerely care and desire to provide the opportunity to meet you and be there for you in order to help minister to your physical, emotional, and spiritual needs in this time of crisis. For long-term evacuees, this is also a new beginning, in a new community, and we desire to encourage and help you realize life to the fullest!
